

# Simplify Your Sales Process with

How UVERCE™ can solve YOUR sales challenges!

## Supply chain issues

UVERCE™ can focus your customers on products that are available to sell

- There are several opportunities to sell current products that are available as well as recommend on-hand alternatives for products that aren't
- Customers are looking to purchase A4 devices for their Hybrid working environment and an easy sale through UVERCE™
- UVERCE™ can highlight "Featured Products" upfront which allows you promote the products you have in stock

## Sales recruiting challenges

UVERCE™ is a complementary solution to your sales force and can reduce the sales process by 50%

- To streamline the sales process, UVERCE™ can help your customers, educate, find and configure products, before they talk to a salesperson
- As an internal sales tool, new (and seasoned) reps can easily find, configure, price and provide their clients with quotes in an automated solution that cuts training time, creates efficiencies and ensures accuracy

## Remote/virtual selling during COVID

UVERCE™ engageIQ allows you to virtually engage with your clients when they are ready for a salesperson

- engageIQ can be activated by your clients at any time or you can guide your clients to talk to a specialist as part of the buying process
- You have complete control of your client's purchasing journey
